Subject: Re: Variance letter

Hi Erik, hope all has been well. I wanted to check in and see if you needed any supplemental materials for your consideration of PPMW's temporary variance application.

I doublechecked the patient visit numbers, and here is a replacement sentence for the sentence with the * on page 7.

"Of 15,558 individual patient visits since January 2011, only .006% of them resulted in an emergency transfer to the hospital."

Just to let you know, I will be away next week, but my CEO, Dr. Laura Meyers will be available during that time to answer any questions that may come up on August 25-26.

Best,

Here is the letter requesting temporary variances from Planned Parenthood of Metropolitan Washington for our Falls Church health center. Thanks again for the meeting earlier this year in which you gave us more information about the process.

Please note that I have written on several documents that we request that they be excluded from FOIA requests due to their sensitivity and the fact that their release could compromise the safety of PPMW staff or patients. I am citing, as I have in the past, Code of Virginia, 2.2-3705.2(3) & (4). All of you at VDH have been really great about that in the past, and we really appreciate it.

I look forward to communicating with you about these variances after you have reviewed them.

Best,
